## A festival of educational science

The 29th Congress of the German Society for Educational Science (GERA) will take place in Halle from 10 to 13 March 2024. We expect about 2000 scholars to discuss educational perspectives on the congress theme "Crises and Transformations". The congress will primarily take place on the grounds of the Francke Foundations. For the preparation and implementation of the congress, we need a large team of temporary student workers. Be there when the largest congress in MLU's history takes place.
